University Supervisor: Prof. Simion Onywere

APPLICATION OF ARC GIS (CAMPUS EDITING ArcGIS 10) TO HOSPITAL MANAGEMENT, PATIENT CARE AND PATIENT FLOW SYSTEMS

INTRODUCTION

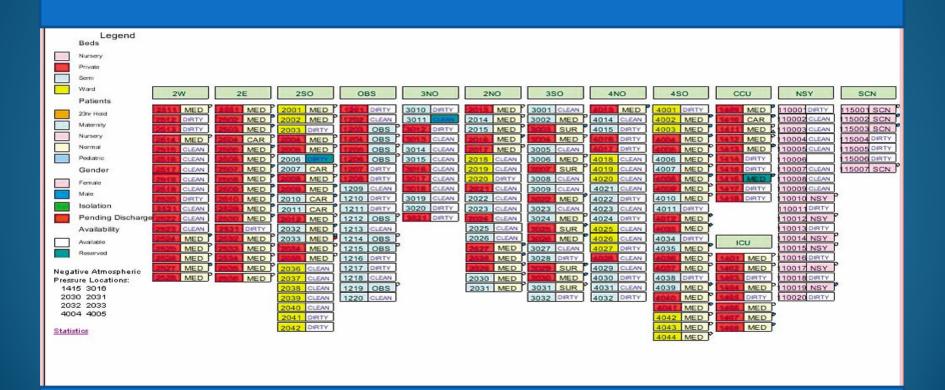

What is Campus Editing ArcGIS 10?

- **Ü** The Campus Editing ArcGIS 10 is an Arc Map editing map and set of editing work flows for managing building, interior space and related exterior campus data.
- U The Campus Editing map can therefore be used for this case to capture the interior bed location of each patients ward on the proposed university referral hospital and also all the available rooms within the hospital and the department of service they are attached to for the purpose of management.

- I PATIENT CARE SYSTEM
- **ü** Effective bed location to patients on admission
- **ü** Effective treatment strategies
- **ü** Correct patients wards allocation
- **ü** Increased patient data retrieval

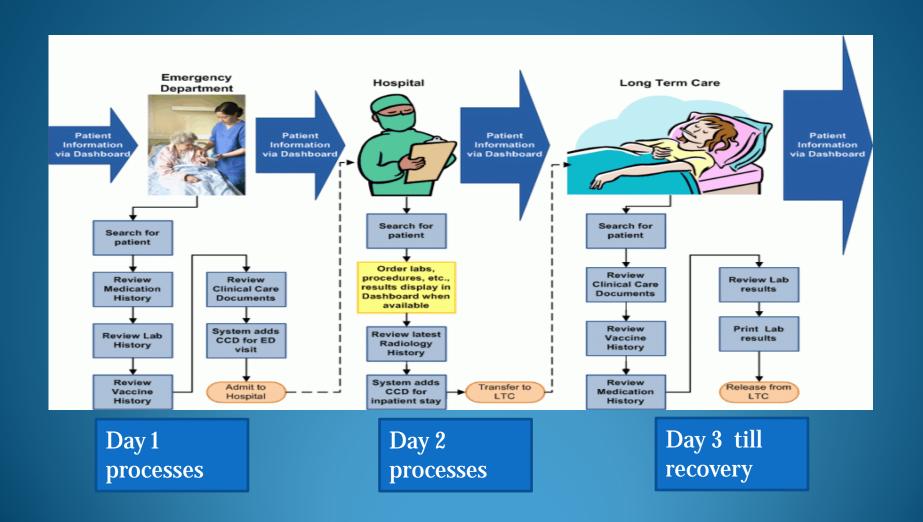

- I PATIENT CARE SYSTEM
- **ü** Effective bed location to patients on admission
- **ü** Effective treatment strategies
- **ü** Correct patients wards allocation
- **ü** Increased patient data retrieval

ELECTRONIC BED BOARD ALLOCATION

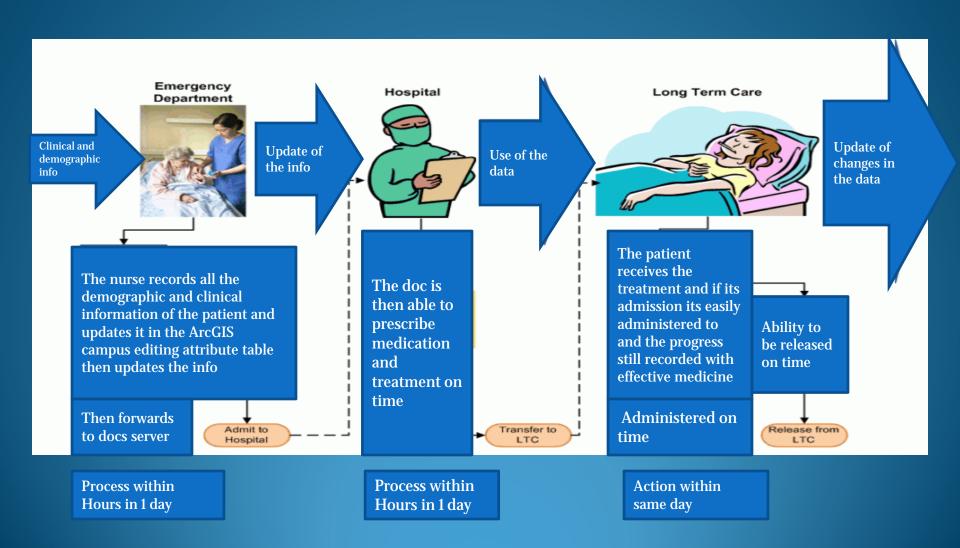

- II PATIENT FLOW SYSTEM
- **ü** Effective on time attendance of patients
- **ü** Effective and quick medical attention to patients
- **ü** Improved personnel coordination

PATIENT ATTENDANCE AND ADMISSION PROCESS WITHOUT USE OF ARC GIS (CAMPUS EDDITING 10)

PATIENT ATTENDANCE AND ADMISSION PROCESS WITH USE OF ARC GIS (CAMPUS EDDITING 10)

III EMERGENCY WARD DEPARTMENT CROWDING

- **U** Improve on time-sensitive care to patients
- **U** Elimination of crowds in the emergency patient wards
- Provision of alternative patients admissions wards

ELECTRONIC FLOOR PLAN USE BOARD

IV HOSPITAL MANAGEMENT AND DECISION MAKING

- **Ü** Data provision of medical supplies inventory
- Statistics of hospital staff and indicate need for changes
- Decisions on hospital facilities expansion

CONCLUSION

 Evidence of poor patient flow and care management amidst the country hospitals

Need for adoption and use of ARCGIS (Campus Editing 10)

THANK YOU FOR YOUR AUDIENCE
